iHeart Media

San Francisco

Office Administrator

Dec. 2011 to Jan. 2015

- Project management: developed and implemented new systems to increase listenership by 40 million people.
- Established re-order points and developed a system that stabilized month to month inventory acquisitions after performing budget analysis which lead to 10% reduction in purchasing costs.
- Conducted and analyzed engagement levels which sparked an interest in a mandatory, corporate wide (22,000+ employee), engagement survey. This lead to implementation of corporate wide team building events.
